4

The diagram illustrates the fourth step of the assembly process. It shows the side panels (9) being attached to the main frame (2). The shelves (4) are shown being inserted into the frame from the top and bottom. A circular inset provides a detailed view of a screw being driven into the frame. The diagram is divided into two sections, each showing a different view of the assembly process.

6

7

Diagram illustrating the assembly of a shelving unit, specifically step 7. The unit consists of a main frame (3) and a top panel (1). The shelves (5) are being installed into the frame. The bottom panel (6) is shown separately, with four cam bolts (81062) being inserted into its corners. A circular inset shows a close-up of a cam bolt (81062) being inserted into a hole in the bottom panel. Another circular inset shows a hand inserting a cam lock (122439) into a hole in the side panel, with a note "(x8)" indicating eight are required. A third inset shows a screwdriver tightening a screw into the side panel.

8

Diagram illustrating the assembly of the cabinet's base and side panels. The main components shown are:

- Panel 7**: The upper side panel.
- Panel 8**: The lower side panel.
- Hardware and Components**:
 - 146**: Corner bracket for panel 7.
 - 147**: Screws for panel 8.
 - 172**: Screws for panel 8.
 - 298171**: Screws for panel 7.
 - 298172**: Screws for panel 7.
 - 298177**: Shelf for panel 8.
 - 100**: Screws for panel 8.
 - 525**: Screws for panel 8.

The diagram includes callouts showing the installation of the brackets and screws. A small inset shows the final assembled unit.
