OFF

The diagram illustrates the assembly of a ceiling-mounted light fixture. A callout shows the wiring connections for the fixture's internal switch and outlet, with terminals labeled L, N, and G. The main assembly steps are numbered 1 through 6:

1. Mounting the fixture to the ceiling.
2. Attaching the mounting bracket.
3. Tightening the screws.
4. Connecting the wiring.
5. Attaching the mounting plate.
6. Attaching the mounting ring.
