COLLECTION VILLA BORGHESE

With the design of the Collection Villa Borghese, Selva's designers were clearly inspired by the French style of Louis XVI and classicism in France and Germany.

This stylistic period, which lasted from 1770 to 1806, was characterized by the reversion to the simplicity of antiquity. Linearity asserted itself once again. Some of the typical furniture ornaments of this period were the braid and vertical fluting. The furniture once again took on straight and strict, almost box-like forms, and there was a return to the construction rules of antiquity.

La collezione Villa Borghese si ispira fortemente allo stile francese Luigi XVI e al Neoclassicismo che fiorì in Francia e in Germania negli anni tra il 1770 ed il 1806.

Lo stile Luigi XVI fu caratterizzato da un ritorno alla semplicità e alla linearità dei classici greco-romani. Tra gli ornamenti tipici di quest'epoca troviamo trecce e scanalature verticali su mobili rigorosamente squadrati.

Die Designer von Selva wurden beim Entwurf der Collection Villa Borghese eindeutig vom französischen Stil des Louis Seize (XVI) und des Klassizismus in Frankreich und Deutschland inspiriert.

Die von 1770 bis 1806 reichende Stil-Epoche war durch den Rückgriff auf die Einfachheit der Antike geprägt. Die Geradlinigkeit setzte sich wieder durch. Eines der typischen Möbel-Ornamente dieser Zeit waren der Zopf und die senkrechten Kannelierungen. Die Möbel erhielten wieder gerade und strenge, fast kastenartige Formen und man kehrte zurück zu den Konstruktionsgesetzen der Antike.

17 = Kirschbaumfarbig antikisiert dunkel mit Gebrauchsspuren, von Hand anpoliert und handgewachst / Finitura antichizzata tinta ciliegio scuro con rovinio, rifinito a cera / Antique dark cherry-coloured with distressed finish, polished and waxed by hand

60 = Schwarz antikisiert mit Gebrauchsspuren, handpoliert und handgewachst. Die sichtbaren Vitrinenrückwände sowie die Rückwände der offenen Regale werden immer kirschbaumfarbig poliert / Finitura antichizzata nera con rovinio, rifinito a cera. Gli schienali a vista delle vetrine e degli scaffali vengono sempre lucidati in finitura ciliegio / Antique black-coloured with distressed finish, polished and waxed by hand. The visible backs of the china cabinets and bookcases will always be polished with a cherry-coloured finish

62 = Weiß gekalkt (décapé) antikisiert mit Gebrauchsspuren, Pinselspuren und handgewachst. Die sichtbaren Vitrinenrückwände sowie die Rückwände der offenen Regale werden immer kirschbaumfarbig poliert / Finitura antichizzata bianco gessato (décapé) con rovinio e pennellatura, rifinito a cera. Gli schienali a vista delle vetrine e degli scaffali vengono sempre lucidati in finitura ciliegio / Antique lime-treated white (décapé) with distressed finish and brushstrokes, waxed by hand. The visible backs of the china cabinets and bookcases will always be polished with a cherry-coloured finish

LIEBE ZUM DETAIL

Holz und Verarbeitung
Die Massivteile der Collection Villa Borghese (Kranz, Sockel, Rahmen und Profilleisten) sind aus Linde gefertigt.
Für die furnierten Teile (Fronten, Seitenteile, sichtbare Rückwände und Platten) verwenden wir Kirschbaumholz.
Besonders grazil wirken bei dieser Kollektion die Kannelierungen an den Lisenen und Füßen; typisch sind auch die rhombenförmigen Ornamente.

Zierbeschläge
Großen Wert legen wir auf die sorgfältige Abstimmung der Zierbeschläge, um den besonderen Stil dieser Kollektion zu unterstreichen. Für die Collection Villa Borghese verwenden wir wertvolle Zierbeschläge in Messing, antikisiert und brüniert. Es stehen zwei verschiedene Griffe zur Auswahl: M01 (Griff Louis XVI) und M02 (Griff Directoire).

Einlegeböden
Alle sichtbaren Einlegeböden aus Holz und Glas sind verstellbar bzw. abnehmbar. Glaseinlegeböden haben eine Stärke von 8 mm, Holzeinlegeböden eine Stärke von 17 mm.
Die Messingträger können in den vorgegebenen Positionen eingesetzt werden.
Die Türverglasung ist mit Facettenschliff.

Beleuchtung
Alle Vitrinen der Collection Villa Borghese haben Innenbeleuchtung mit dem Prüfzeichen VDE und entsprechen den EU-Normen für Transformatoren und Halogenstrahler. Bei Überhitzung der Strahler schalten alle Lampen automatisch ab.

CURA DEL DETTAGLIO

Legni e lavorazione
Le parti massicce della collezione Villa Borghese (corpo, cimasa, cornice, profili e basamento) sono realizzate in Tiglio.
Le parti impiallacciate (frontali, parti laterali, schienali a vista e piani) sono in ciliegio.
Questa collezione si contraddistingue per le scanalature lungo le spalle e le gambe del mobile nonché per i tipici ornamenti a rombo.

Ferramenta ornamentale
Per sottolineare il carattere proprio di ogni collezione, la scelta della giusta ferramenta ornamentale è determinante. Abbiamo impreziosito la collezione Villa Borghese con particolari in ottone, brunito ed anticato. Viene data la possibilità di scegliere tra due maniglie: M01 (maniglia Louis XVI) e M02 (maniglia Directoire).

Ripiani
Tutti i ripiani a vista, realizzati in legno e vetro, sono mobili o regolabili a diverse altezze.
I ripiani vengono realizzati in 2 spessori: 17 mm per il legno, 8 mm per quelli in cristallo.
I perni reggiripiani in ottone si possono inserire in più posizioni lungo i fianchi del mobile.
Le ante delle vetrine sono in cristallo molato.

Illuminazione
Tutte le vetrine della collezione Villa Borghese sono dotate di illuminazione interna secondo le norme CEI e sono in linea con le norme UE per i trasformatori e i fari alogeni.
In caso di surriscaldamento le lampade si spengono automaticamente.

LOVE OF DETAIL

Woods and Workmanship
The solid sections of the Collection Villa Borghese (such as cornices, bases, frames, and mouldings) are made from linden.
For the veneered sections (fronts, side sections, visible back walls, and panels), cherry is used.
The fluting of the pilasters and the legs has an especially delicate effect with this collection. The rhombus-shaped ornaments are also typical.

Decorative Fittings
We have always attached great importance to the careful coordination of the decorative fittings with the furniture, in order to underscore the unique style of each collection. For the Collection Villa Borghese, we use high-quality, decorative fittings in brass that have been antiqued and burnished. A choice may be made between two different handles: M01 (Louis XVI handle) and M02 (Directoire handle).

Shelving
All visible shelves made from wood and glass are adjustable or removable. Glass shelves have a thickness of 8 mm (0.315 inch), wooden shelves have a thickness of 17 mm (0.669 inch). The brass supports may be used in the positions provided.
The doors are glazed with faceted crystal glass.

Lighting
All china cabinets of the Collection Villa Borghese have interior lighting which carries the inspection mark VDE and complies with EU specifications for transformers and halogen lamps. All lamps will switch off automatically in the event of overheating.
