The drawing shows a mechanical assembly with the following components and labels:

- 1**: A circular component, possibly a lens or a cap, shown in a separate view.
- 2**: A long, thin, angled component, possibly a leg or a support arm.
- 3**: A component that looks like a spring or a flexible joint, shown in a separate view.
- 4**: A component that looks like a spring or a flexible joint, shown in a separate view.
- 5**: A small circular component, possibly a pin or a fastener.
- A**: A label pointing to a vertical assembly of components, including a spring and a support structure.
- B**: A label pointing to a horizontal assembly of components, including a spring and a support structure.
- C**: A label pointing to a curved component, possibly a spring or a flexible joint.
- D**: A label pointing to a component that looks like a spring or a flexible joint.
- E**: A label pointing to a component that looks like a spring or a flexible joint.

Technical drawing of a mechanical assembly. The main view shows a perspective of a V-shaped structure with four vertical supports. A callout box on the right provides a detailed view of a component, labeled with letters B, C, and D. Component B is a circular base with a central hole. Component D is a threaded rod with a hexagonal head. Component C is a curved arm with a hook-like end. A dashed line indicates the assembly path from B to D to C.
