V8

Let op! Door het eigengewicht en materiaaleigenschap kan een keramiek- of dektionblad breken bij oneigenlijk gebruik. De lange zijde van het blad mag bij montage niet doorhangen.

Til het keramiek- of dektionblad op aan de zijkant van het frame, til deze niet aan de hoeken van het blad.

De max. draagkracht aan het uiteinde van de plaat incl. onderstel bedraagt 10kg. Bij overschrijding ontstaat er breukgevaar.

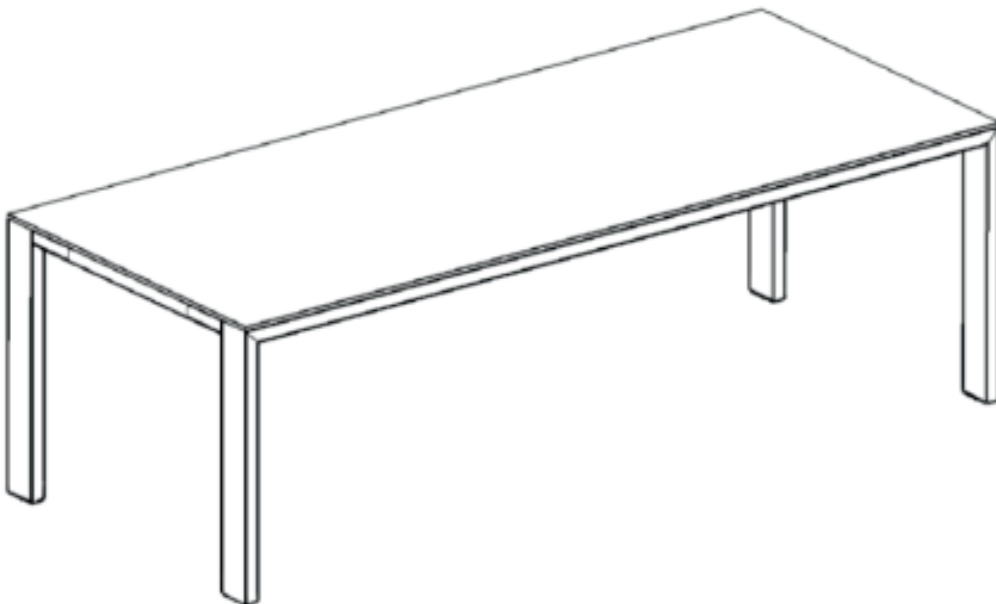

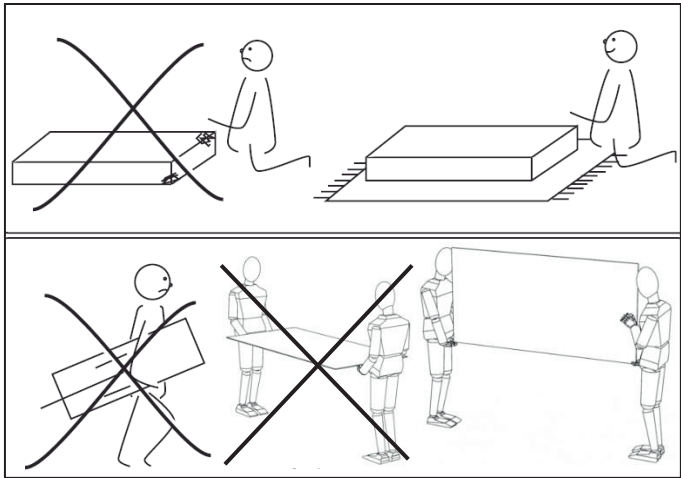

Achtung! Durch das Eigengewicht und die Beschaffenheit der Keramik- oder Dektonplatte kann es bei Fehlanwendungen zum Bruch der Keramik- oder Dektonplatte kommen.

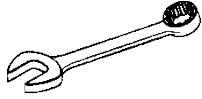

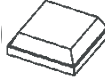

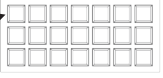

Beim Aufbau darf die Keramik- oder Dektonplatte längsseits nicht durchhängen.

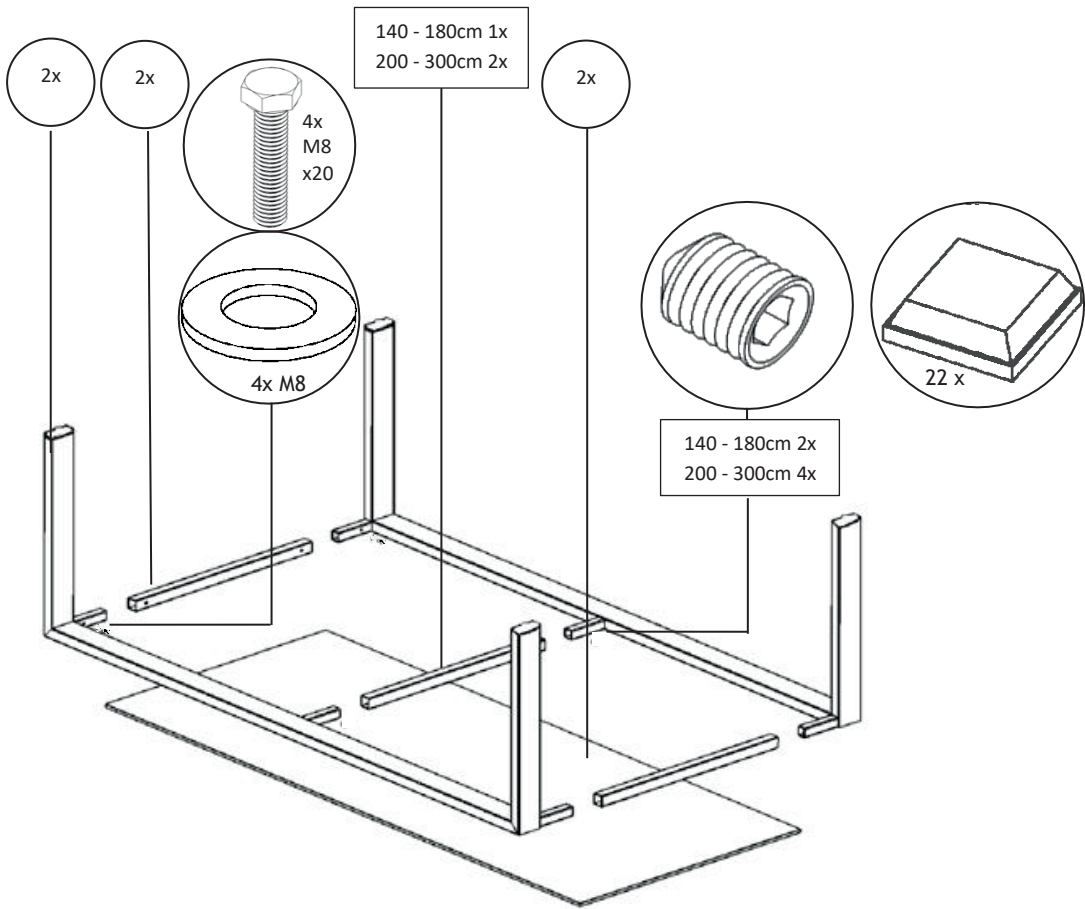

Heben und tragen Sie daher die Keramik- oder Dektonplatte seitlich am Gestell und nicht an den Ecken.

Die max. Tragkraft am Ende der Keramik- oder Dektonplatte inkl. Tischgestell beträgt 10 kg. Wird diese überschritten, besteht Bruchgefahr.
