GB IMPORTANT! RETAIN FOR FUTURE REFERENCE. READ CAREFULLY

WARNING: Keep small parts, packaging bags, and films out of reach of babies and toddlers due to the risk of suffocation and possible swallowing!

To avoid the risk of suffocation, plastic covers should be removed before use. Destroy or keep covers away from children.

- Please strictly follow the assembly instructions and keep them for future reference. We cannot assume any liability for incorrect assembly. Do not use the item if any structural component is missing or damaged, compromising its stability. Failure to comply with instructions to the product, or the use of non-authorized parts will void any warranty or liability claims. Our major is designed and suitable for private use. According to the assembly instructions, many items require us to mount them if desired. If desired, however, even if not included, they are only suitable for solid masonry. It is then your responsibility to ensure that you install them before installing and replace if necessary. Pay attention to the layout of water or electrical lines.
- Electrical components that are not connected to the power grid via a socket should only be installed by appropriately trained professionals (e.g., lighting in bathrooms, door connections in kitchens). A separate manual is included for electrical components. Please be sure to follow it. Included LED lighting is for decorative purposes and is not suitable for the main lighting of a room.
- Regularly check screw connections and tighten them if necessary. Observe the load specifications in the assembly instructions. If additional safety straps are provided in the assembly instructions for the secure wall mounting, they must be installed (e.g., wall shelves, large hanging cabinets, etc.).
- New furniture typically entails a characteristic odor. This is caused by the release of various volatile substances from the materials used in very small concentrations. These substances are not regenerated and dissipate on their own after subsequent airing with a short time. Maintain an average room temperature of approximately 18–22 degrees Celsius and a room humidity level between 60–80%, and vent it regularly to prevent mold formation. Treat and rotate mattresses regularly to prevent indentations. Clean the furniture with slightly damp cotton cloths. Avoid microfibre cloths and cleaning agents with abrasive or solvent-containing substances. Remove standing moisture immediately.
- Note: To avoid scratches on the floor, carefully lift upholstered furniture. Do NOT pull, tilt, or drag.
