

GENERATION LIGHTING

1A

- 1 Screw the half ball to the stem which will be on top.
- 2 Determine the wanted height or look of the fixture with the provided stems, then assemble them by screwing them together.
- 3 Feed the fixture wires through the spacer and stem assembly, then screw the stem assembly to the top of the fixture.
- 4 Feed the fixture wires through the collar nut, canopy and half ball assembly, then screw it onto the stem assembly.
- 5 Align and secure the mounting plate to the ceiling, then slide the half ball assembly onto the mounting plate.
- 6 Connect the fixture to a suitable ground in accordance to local electrical codes.
- 7 Neatly place all the wires into inside, place OF the canopy onto the mounting plate and secure it in place by screwing the collar nut tightly onto the mounting plate.
- 8 Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
