Vedlikehold av oljede eikemøbler med pigmentert (farget) overflate

Rengjør alltid med Rubinol trerengjøring før du behandler bordet med olje.

Pigmenterte (fargede) flater bør behandles med pigmentert olje hver 4. gang man oljer. Vi anbefaler 3 ganger med Rubinol treolje (nøytral) og hver 4. gang med Rubinol pigmentert olje, eller etter behov.

Rubinol pigmentert olje brukes for å friske opp fargen der man har behov for mer pigmenter. Bruker man bare Rubinol pigmentert olje vil overflaten etter hvert bli mørkere og mørkere, eller hvitere og hvitere på hvitpigmenterte flater. Derfor anbefales en nøytral olje regelmessig for å tilføre fuktighet og mette treet slik at det ikke absorberer uønskede væsker.

På oljede overflater må søl tørkes av omgående hvis man skal unngå flekker eller vannmerker i treet. Bruk brikker på glass, vaser og lignende.

Oljene under som vi anbefaler er ikke herdende, og kluter som er brukt for påføring og behandling vil derfor ikke være selvantennelige.

Følg framgangsmåten som er beskrevet på flaskene.
