

Assembly Instructions For

0L3001B

IMPORTANT

TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX
BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly.

Bulbs not included.

1. Screw short threaded end of center pipe into socket assembly.
2. Slip candle cover tube onto sockets.
3. Install light bulb (not included). See relamping label at socket area for type and Maximum allowed Wattage.
4. Slide top cover and font through center pipe till checks onto main frame. Lock them into position with rubber washer and finial.
5. Electrical installation onto post: if you are replacing an existing fixture, discontinued and remove the old fixture. Make wire connection; please follow enclosed supplement installation instructions for electrical installation and fixture installation.
6. Screw the post cup with bottom column 2B.
7. Once the cement is fully dried, place the Post Base over the Anchor Bolts and pull Electric Supply Wire through hole. Secure Post Base to concrete with three (3) Cap nuts threaded over Anchor Bolts as shown on the Fig. 1.
8. Place Bottom Column over to Post Base aligning three (3) screws supplied and screws them.
