

I-BOOST 2 i-Size

USER GUIDE

MODEL: I-BOOST 2 i-Size ECE R129.03 v.1.0

NOTE! Product graphics serve an illustrative function!

1.0 Usage

The car seat has been designed, tested and approved for use in accordance with the requirements of UN/ECE Regulation No. 129 concerning the approval of child restraint systems (UN/ECE R129/03).

The I-BOOST i -Size car seat is intended for for transporting children with a height between 125-150 cm (up to approximately 12 years). The child should be fastened using three-point car seat belts for adults.

The car seat can be installed in the car in the places indicated by the manufacturer in the vehicle manual. It is required to read the vehicle manufacturer's operating instructions.

Hight of the child	Car seat setting	Car seat mounting
125-150cm	 A line drawing of a car seat with a light blue interior. A green measuring tape is positioned vertically against the backrest of the seat. The top of the tape is at the top of the backrest, and the bottom is at the base of the seat. A red mark is visible on the bottom of the tape.	Three-point car seat belt

2.0 Safety instructions

Please take a few minutes to read this instruction manual in order to ensure the proper safety of your child.

- The car seat **MUST NOT** be installed on the vehicle seats mounted backwards or sideways.

- The car seat can only be installed on the vehicle seat with a three-point car seat belt.
- The front air-bag must be deactivated.

- It is recommended to install the car seat on the vehicle back seats only.

!WARNINGS!

Please take a few minutes to read this instruction manual in order to ensure the proper security of your child. Many injuries that are easy to avoid are caused by reckless and improper use of the car seat.

! The car seat is designed to be installed only on forward facing vehicle seats. The car seat must not be installed on rearward facing or side facing vehicle seats.

! If the car seat is installed in the front vehicle seat, the front air-bag must be deactivated. It is recommended to install the car seat only on the vehicle back seats. Please refer to your vehicle operating manual for information on the suitability of the vehicle seat for use with a car seat.

! Remember - the internal safety harness holding the child should be adjusted to the child's body shape and not twisted. For this reason, the child should not wear thick clothes under the safety harness.

! It is recommended to keep the instruction manual of the car seat throughout its lifetime.

! In the event of an emergency, you have to quickly unfasten the car seat belt. This means that the release button of the safety harness is not fully secured; make sure your child does not play with the safety harness.

! The car seat should be replaced when it has been subjected to violent stresses during a traffic accident.

! The car seat cannot be modified in any way without the acceptance of the relevant authority granting approvals. Failure to install the car seat in accordance with the manufacturer's instructions may pose a threat to people's life and health.

! Protect the car seat from direct sunlight, otherwise your child may be burnt by its heated parts. Protect your child and the car seat from sunlight.

! Never leave your child unattended in the car seat.

! Make sure that the luggage and other objects are adequately secured, in particular on the rear parcel shelf, as they can cause injuries in the event of a collision.

! The car seat cannot be used without its cover.

! Do not use any attachment points, other than those described in the instruction manual and marked on a car seat.

! All hard elements and plastic parts of the car seat must be placed and installed in a way preventing them from being trapped by the sliding seat or vehicle doors under normal vehicle operating conditions.

! Regularly check the technical condition of the car seat, pay special attention to the fixing points, seams and adjusting parts. It is important to ensure that all mechanical elements are fully operational. Never grease or oil parts of the car seat.

! Do not use the car seat if its parts are damaged or loose.

! On some vehicle seats made of delicate materials, the use of car seats may leave marks and/or discolouration. In order to prevent it, you can place a blanket, towel or similar product under the car seat.

! Do not use any replacement covers, other than those recommended by the manufacturer, as the cover is an integral part of the safety system of a car seat.

! Make sure that the car seat is correctly secured before each journey in the car.

! The car seat must be secured at all times, even when not in use. The car seat that is not fastened can injure the passengers even during emergency braking.

! Set a good example for your child and always fasten your car seat belt. An adult who is not fastened with a car seat belt can also pose a threat to a child.

IMPORTANT! Make sure there are no gaps between the car seat and the vehicle seat.

IMPORTANT! To ensure your child's comfort, move the front vehicle seat as far forward as possible to provide room for your child's legs.

3.0 Installation of the car seat

Note! The car seat should be placed directly on the vehicle seat.

3.1 Children between 125 and 150 cm tall - using a three-point car seat belt.

1. Install the car seat forward facing on the vehicle seat.
2. Push the car seat all the way to the vehicle seat.
3. Place your child in the car seat
4. Pull the shoulder belt tight and guide it over your child's shoulder
5. Guide the car seat belt through both waist belt guides.
6. Fasten the car seat belt. You will hear a characteristic "click".

4.0 Removing the cover

1. Starting at the bottom of the car seat, carefully remove the cover on both sides of the car seat
2. Pull the fabric off the armrests
3. Remove the fabric completely from the car seat by pulling it towards you

4.1 Installing the cover

To put the cover back on - just reverse the above sequence of actions. Align the cover with the attachment points on the car seat. Start by installing the cover on the shell of the car seat and finally on the headrest part.

5.0 Cleaning

NOTE! The car seat must not be used without the cover.

- The cover is removable and washable with a mild powder and using a program for delicate fabrics (30°C).
- Follow the washing instructions on the cover information label. The colours may fade if it is washed at the temperature above 30°C. The cover should not be centrifuged or dried in a tumble dryer (which may lead to separation of the material layers).
- Prolonged sun exposure of the cover is prohibited.
- Plastic parts can be cleaned with soap and water.
- Do not use aggressive cleaning agents (such as solvents).
- The safety harness can be cleaned in lukewarm soapy water.

Warning! You must not remove the metal clips from the safety harness.
