

GENERATION LIGHTING

- 1 Follow enclosed supplement installation instructions for electrical and fixture installation onto house wall.
- 2 Screw the column to the top of the socket assembly.
- 3 Place the hub on top of the column and secure it in place by installing the spacer and screwing the upper finial onto the column.
- 4 Install the candle tubes by sliding them over the sockets.
- 5 Install the candle followers by placing them on top of the candle tubes.
- 6 Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
- 7 Install the long beads by hooking them to the hub and fixture arms. Then install the short beads by hooking them from one fixture arm to another.
- 8 Screw the lower finial to the bottom of the fixture.
