

GENERATION LIGHTING

- 1 Spread all fixture arms equally apart from each other ensuring that they match the slots on the top and bottom covers.
- 2 Feed the bottom cap through the inside of the globe bottom, install the bottom cover, and secure in place with the finial.
- 3 Feed the cord through the top cap and screw it to the socket assembly, then feed the top cap through the inside of the top of the globe, install the top cover and secure them in place with the washer and fixture loop.
- 4 Follow enclosed supplement installation instructions for electrical and fixture installation onto the ceiling.
- 5 Install the candle tubes over each socket.
- 6 Screw the lamps into the sockets. Refer to the label on the lamp socket for Max Wattage information.
