Liebe Kundin, Lieber Kunde,

neue Einrichtungsgegenstände haben in der Regel einen Eigengeruch, der abhängig von der Produktionscharge, was Geruchsintensität und Geruchseindruck angeht, unterschiedlich ausgeprägt sein kann. Von einigen Menschen wird der Geruch als unangenehm empfunden oder ruft gar gesundheitliche Bedenken hervor. Bei Möbeln, die mit dem Umweltzeichen „Blauer Engel DE-UZ 38 Emissionsarme Möbel und Lattenroste aus Holz und Holzwerkstoffen“ ausgezeichnet sind, können Sie sicher sein, dass mit keinen gesundheitlichen Beeinträchtigungen zu rechnen ist. Die Anforderungen des Umweltzeichens finden Sie unter: www.blauer-engel.de. Leider können Möbelgerüche nicht einfach weggewischt werden, da sich die Geruchsquelle (Holzwerkstoffe, Beschichtungsstoffe) weiterhin im Wohnraum befindet. Der Geruch wird jedoch über einen nicht vorhersehbaren Zeitraum schleichend abnehmen und schließlich nicht mehr wahrnehmbar sein. Dies ist dann der Fall, wenn die Geruchsstoffe im Material selbst soweit abgebaut sind, dass die persönliche Geruchsschwelle unterschritten wird.

Tipp:

Generell wird empfohlen, größere Einrichtungsgegenstände vor dem Aufbau auszupacken und gut belüftet, für ca. 1 Woche, ausdünsten zu lassen.

Dear Customer,

It is quite common for new furniture to have a distinct „new“ scent. Depending on the specific production batch, the intensity and nature of this smell can vary. We appreciate that for some, this scent can be more noticeable and may lead to perceived concerns regarding wellbeing. However, please be assured that for furniture carrying the „Blue Angel“ (Blauer Engel DE-UZ 38) eco-label for low-emission furniture and slatted frames made of wood and wood-based materials, there are no associated health risks. This certification guarantees that the products meet strict safety standards. For further details on these environmental requirements, please visit: www.blauer-engel.de. Unfortunately, furniture odours cannot simply be „wiped away,“ as the source (such as the wood-based materials or coatings) remains in the room. That said, the scent will gradually fade over an unpredictable period until it is no longer noticeable. This occurs once the compounds within the material have dissipated to a level below the individual's scent threshold.

Tip:

As a general rule, we recommend unpacking larger items and allowing them to air out in a well-ventilated space for about a week before final assembly.

Chère cliente, cher client,

Les nouveaux meubles ont généralement une odeur propre qui, selon le lot de production, peut varier en termes d'intensité et d'impression olfactive. Certaines personnes trouvent cette odeur désagréable, voire préoccupante pour la santé. Pour les meubles certifiés par le label écologique « Blauer Engel DE-UZ 38 Meubles et sommiers à lattes à faibles émissions en bois et matériaux dérivés du bois », vous pouvez être sûr qu'ils ne présentent aucun risque pour la santé. Vous trouverez les exigences du label écologique sur : www.blauer-engel.de. Malheureusement, les odeurs des meubles ne peuvent pas être simplement éliminées, car la source de l'odeur (matériaux dérivés du bois, revêtements) se trouve toujours dans la pièce. Cependant, l'odeur diminuera progressivement sur une période imprévisible et finira par ne plus être perceptible. Ce sera le cas lorsque les substances odorantes présentes dans le matériau lui-même se seront décomposées au point de passer en dessous du seuil olfactif personnel.

Conseil:

Il est généralement recommandé de débiller les meubles de grande taille avant de les monter et de les laisser s'aérer dans une pièce bien ventilée pendant environ une semaine.
