- The fitting is not suitable to use Halogen bulbs
- Do not exceed the maximum rated wattage as stated on the lamp holders.
- This fitting is not suitable for dimming

ADDITIONAL INFORMATION:

- The individual cables can be shortened however we would recommend this is done before installation. The plastic cord must first be loosened using a small screwdriver and turning anti clockwise. The cable can then be pulled through into the ceiling can .The cord grip MUST be re-tightened once the desired cable length is achieved . Do not wrap any excess cable in the ceiling can around the transformer or so it might cover any ventilation holes .

AFTERCARE AND MAINTENANCE:

- Always disconnect power supply when servicing or cleaning.
- Clean only with a dry or slightly damp cloth.
- Do no use any abrasive cloths or cleaners as this may damage the product
