

### **SAFETY INFORMATION: (Please retain for future reference)**

- Always turn off the mains supply before commencing the installation of this fitting .
- This is a Class 1 product  and requires an Earth connection – 230 (240) Volts – 50Hz AC.
- This product must be installed in accordance with the national building regulations, if in doubt consult a competent electrician.
- Do not stare at the operating lamp .
- Do not modify or alter any product before or after installation. This may invalidate your warranty and may render the product un-safe.

### **POSITION**

- This fitting is suitable for installation in Indoor locations only . 
- Ensure sufficient access to the fitting to enable safe maintenance.
- The Luminaire should be positioned so that prolonged staring into the luminaire at a distance closer than 0.2m is not expected

### **LED INFORMATION:**

- We recommend LED lamps only.
- Do not exceed the maximum wattage and lamp shade stated on the lamp holder.
- If dimming is required, suitable dimmable LED lamps must be used.

### **ADDITIONAL INFORMATION:**

- If the height of the fitting requires shortening we recommend that the removal of any chain links and supply cable that may need to be cut to a shorter length is done by a qualified electrician (Remember to mark clear cable with Live, Neutral and Earth prior to removing from the terminal block).
- The length of the supply cable CANNOT be increased.

### **AFTERCARE AND MAINTENANCE:**

- Always disconnect power supply when servicing or cleaning.
- Clean only with a dry or slightly damp cloth.
- Do not use any abrasive cloths or cleaners as this may damage the product .
