

**IMPORTANT**  
TURN OFF THE POWER AT THE MAIN FUSE  
OR CIRCUIT BREAKER BOX  
BEFORE STARTING INSTALLATION

**Carefully unpack and identify all parts before assembly. Bulbs are not included.**

1. Carefully thread fixture wire through fixture loop. Screw fixture loop onto top threaded pipe until secure.
2. Follow enclosed supplement installation instructions for electrical and fixture installation onto house ceiling.
3. Screw the threaded stud into finial. Then slip the threaded stud through spacer tube and leaf (facing down). And then screw the protruding threaded stud into bottom of fixture.
4. Install shades onto fitters by fastening counter rings onto threaded sockets.
5. Install bulbs (not included). See relamping label located near socket area for type and maximum allowed wattage.
