Aluminum is a versatile material that is very strong, durable, and resistant to wear and tear over time and weather conditions. It is a pleasant, up-to-date, practical and comfortable piece of furniture that can be made strong and lightweight.

Maintenance and care

Aluminum needs no special care. When cleaning, it is recommended to use mild neutral detergent and water on a smooth cloth. Abrasive sponges that may scratch the surface are not recommended.

Textilene is a polyester polyester polyvinyl chloride. It is an innovative material that is highly resistant to temperature fluctuations, ultraviolet light, salt and chlorine. Its toughness guarantees maximum grip and wear.

Maintenance and care

Textilene is easy to clean and ironing is not recommended.
